FCBARCELONA
més que un club

more than a club

Barça fans and members have high hopes for the coming season. New signings, new teams and new challenges, both in a sporting and social sense.

And that's not forgetting that we have an anniversary to celebrate this year: it will be 50 years since the Camp Nou was inaugurated in 1957. We have enjoyed so many years of magical nights of football, with the finest displays of attacking football in the world, and all kinds of celebrations and unforgettable memories. And the greatest anniversary gift would be to see the stadium filled to the rafters for every match.

And then there are all the other sports sections. The Palau Blaugrana has been redesigned to increase spectator comfort for the fans and members coming to watch all our different teams in action.

Along similar lines, the club is still looking to increase its membership by promoting new products, services and advantages that are of exclusive benefit to club members. That is the reasoning behind this new guide: it is a reference document to tell you about all the different products, services and advantages that are available only to members.

Keep it safe all year, and you won't be sorry.

free your seat-system

The quantity of season tickets held by members is so high in the Camp Nou stadium that it would be difficult to provide tickets to all the FC Barcelona fans interested in attending the games without this state-of-the-art system. The Seient Lliure system permits season ticket holders, who cannot attend a certain match, to free their place in order for the club to be able to sell a ticket for that seat. It also ensures that the places of the season ticket holders are not empty, which would affect the ambience in the games. This system works both for the Camp Nou stadium as well as for the Palau Blaugrana.

Because season ticket holders usually free the seats in the last days before a match, new tickets are available continuously up to the start of the matches, although tickets may provisionally seem to run out. If you try to buy a ticket and there is none available, try later again. On average more than 10,000 tickets are available for sale in each match thanks to Seient Lliure and season ticket holders.

- Season ticket holders can check the state of their seat at any time, as well as the accumulated balance for the season, all through the same channels as the ones to free the seat.
- The season ticket holder will receive 50% of the income from sale of the seat that has been freed and sold (minus Value Added Tax and administrative costs).

With a full Camp Nou, Barça wins, you win, everybody wins!

a. Sale of the seat:

The sooner the seat is freed, the better the chances of it being sold. Money made from the sale will be discounted from the cost of the season ticket for the following season. A season ticket holder can save up to 90% of the cost of the ticket of the current season.

b. Recover your seat:

A seat put on sale through the Seient Lliure system can be recovered for its owner's own use, as long as it has not been sold, right up until the moment the match kicks off.

EXHIBITION IN THE CAMP NOU "50 YEARS WINNING WITH BARÇA"

By visiting this exhibition you will learn about the dream that Barça fans felt half a century ago. And it was a dream that came true. They wanted the club to grow by building one of the biggest stadiums in the world.

This exhibition uses documents and pictures to show how the dream started, and to explain the complex process of purchasing the site, right up until the modern era. The Camp Nou is the most emblematic of all FC Barcelona's possessions, a veritable sanctuary of great footballing memories, and the shared emotions of thousands of fans.
